

EDUCATION:

B.E. in Electronics and Telecommunications **University of Mumbai** **Aug 2019 - May 2023**

Project- Cred Care: Prediction Of Credit Compliance Using ML

Built a web-based credit risk platform using ML models trained on financial datasets to predict creditworthiness and loan eligibility with **85% accuracy** with personalized recommendations to increase CIBIL score.

SKILLS:

- **Product:** Requirements Gathering, User Story Writing, Feature Enhancement Planning, Client Needs Assessment, UAT & Acceptance Criteria, Market/Competitive Research
- **Finance Domain:** Investment Portfolio Management, Retirement 401(k), Managed Account, Wealth Management, Compliance Reporting, Due Diligence
- **Data Analytics:** SQL, Excel, Tableau, AWS QuickSight, Power BI, PII Data Management, Data Reconciliation
- **Tech Stack:** Python, ML Modeling, API Integration, DBMS, AWS (Cloud, Bedrock, Lambda, SES)
- **AI Tools:** Quick suite AI, ChatGPT, Copilot agents, Claude (workflow automation)
- **Platforms & Tools:** Jira, Confluence, Asana, Postman, Salesforce, Splunk, Kanban, Harness, Morningstar Direct
- **Certificates:** Atlassian Agile Project Management – LinkedIn, 2024 | Business Intelligence Analyst – Udemy, 2023 | Financial Analyst – LinkedIn, 2023 | Google Data Analyst – Coursera, 2022

EXPERIENCE:

Product Operations Analyst **Morningstar Inc., Mumbai** **Dec 2024 – Present**

- Led end-to-end onboarding and implementation for **7 enterprise clients** — gathering requirements, defining operational workflows with compliance, engineering, and advisory stakeholders, and driving each account to successful go-live.
- Translated client and stakeholder needs into **15+ user stories** and acceptance criteria for feature enhancements and reporting tools; executed UAT across multiple release cycles, identifying edge cases and escalating issues before client-facing deployment.
- Automated **6 client reporting workflows** using Python, AWS Lambda, and SendGrid, **eliminating 49% manual effort** across 5 scheduled reporting pipelines.
- Built and maintained **25+ AWS QuickSight dashboards** for compliance tracking and portfolio monitoring, reducing ad-hoc data requests by **~80%** for advisor and ops teams.
- Built **"OPS GPT,"** an AI-powered querying tool integrated into dashboard workflows, cutting fund-level issue investigation time from **hours to minutes** for analysts.
- Developed a Tableau reporting based on Salesforce data with automated delta-validation alerts, enabling detection of fund data discrepancies for **40 clients**.
- Performed due diligence and data reconciliation across plan documents, fee structures, and investment records – flagging discrepancies before client delivery across all reviewed accounts.

Associate Research Analyst **IndustryARC, Hyderabad** **Oct 2023 – Nov 2024**

- Delivered **100+ market research reports** across **30+ industries** using TAM/SAM/SOM estimation, DCF modeling, competitive benchmarking, and financial forecasting – with a consistent **<5-day turnaround**.
- Analyzed **1,500+ companies** via Bloomberg, PitchBook, and Crunchbase, etc to deliver valuation analysis and sector trend insights used by investment and strategy clients.
- Built Python ETL pipelines for data ingestion and trend extraction across industries, reducing research turnaround time by **40%**.

Business Analyst **MedTourEasy, Delhi** **June 2023 – July 2023**

- Analyzed U.S. healthcare datasets to identify patient trends, service-line profitability, and revenue drivers through segmentation and exploratory data analysis (EDA).

PRODUCT-PROJECT:

• **Next-Gen Retirement Services Fiduciary Platform**

End-to-end PM framework for a multi-tenant fiduciary platform: market sizing, user personas, PRD, system architecture, feature prioritization, roadmap, and KPI/risk definition. Built to demonstrate product thinking and execution.

LEADERSHIP AND ACHIEVEMENTS:

- **Star of the Quarter Award – Q1 2025, Morningstar Inc.** Awarded for delivering high-impact contributions across cross-functional teams within the first quarter of joining the team.
- **Media & Organising Head — IEEE SIES GST (Feb 2021 – Apr 2022)-** Led **25-member** team across multi-channel digital campaigns (**+45% community engagement**); directed Techopedia X, a national symposium with 1,000+ participants, managing sponsorships, logistics, and execution.
- **Top 3 Finish** – Matrix Intercollegiate Quiz Competition, SIES GST, 2019
